HR Recruitment Team
Software Dev Engineer I, Amazon University Talent Acquisition
Job ID: 2815694, 2811598
Amazon, India

Dear Hiring Manager

I am writing to express my interest in the Software Dev Engineer I, Amazon University Talent Acquisition (2815694, 2811598) at Amazon, as advertised.

Currently pursuing BTech final year at IIT Hyderabad, I offer a strong computer science foundation and hands-on experience in full stack development.

During my internship at Mercedes-Benz Research and Development India, I worked on a full stack project using Vue.js, Spring Boot, MySQL, and RESTful web services. This experience honed my skills in both front-end and back-end development, leading to a pre-placement offer (**PPO**).

My technical skills include programming in C, C++, Java, Python, and SQL, with extensive web development experience in HTML, CSS, JavaScript, ReactJS, and Node.js. I am also proficient in DevOps tools and cloud technologies like AWS, Azure, Terraform, and Kubernetes.

I am confident that my skills and experience align well with the requirements outlined in the job description. My strong analytical abilities, combined with my passion for technology, make me a strong candidate for this role. I am eager to contribute my expertise to a dynamic and collaborative team.

Sincerely, Saurabh Kumar
